

## **ES1302.1-B A/D Board - Technical Note**

---

Special requirements have made it necessary to develop an individual filter piggyback for the ES1302.1-B A/D Board (produced by EKS GmbH). The piggyback was developed at RB/K1-AS/EMT3. Any questions you have may concerning this piggyback should be addressed to Mr. Allmendinger.

### **note**

*This RB/K1 filter piggyback should only be used in conjunction with the ES1302.1 board.*

ETAS can provide no functional warranty for the filter piggyback as it was developed by RB/K1.

A schematic of the piggyback is shown on the back.
